

Valley View Casino

**Modular Building
Concepts, Inc.**

project profile

Location: Valley Center, CA

Building Size: Varies

Square Feet: 22,000

Building Use: Accounting, Facility Management, Human Resources, Marketing, Purchasing, Receiving, Transportation and Laundry

Client Challenges: Valley View Casino, part of the San Pasqual Band of Mission Indians is a very successful and popular casino in Northern San Diego County. They cater to the Southern California gambling community and have experienced steady growth since opening in April of 2001. Their challenge was to accommodate the space needs of numerous departments quickly and affordably as the casino expanded.

The MBC Solution: Modular Building Concepts partnered with Valley View Casino to provide additional space as the casino continued its expansion efforts. We regularly consulted with their facilities management team to assess space needs, site constraints and budget requirements for each department. After extensive space planning and needs assessments, MBC designed and installed 22,000 square feet of new modular facilities. The expansion spanned over 3 years and included 33 modules. Valley View Casino is now one of the premier casinos in southern California boasting a recently built, award winning luxury hotel. Modular buildings were an integral part of their successful expansion campaign.
